

DIVERSIFIED GROUP

Your Solution to Health Benefits

Today, employer groups and their advisors need health plan solutions that address the drivers of rising plan costs and not just the symptoms. That's where we come in. We're Diversified Group and we're *Your Solution to Health Benefits*.

Experts in Self-Funding

The Diversified Group was built on the premise that self-funding is the most cost effective and transparent healthcare funding option available today. We have been administering self-insured health plans for over 45 years, and that experience allows us to provide a comprehensive and cost effective approach to healthcare.

Solutions Tailored to You

Your needs are unique, and managing risks that will drive your future healthcare costs demands much more than an off-the-shelf plan. You need...

- Expertise in self-funding
- Accurate, efficient employee benefits administration
- Information and strategies that help you manage care and build a culture of wellness

When properly designed, managed and administered, self-funding has the potential to reduce plan expenses and return savings back to your plan. This can only occur when your TPA firm has:

- The in-depth knowledge and experience to structure a plan that works for your members and your bottom line
- The ability to capture and analyse the data needed to identify and correct negative patterns and potential problem areas
- The resources to build and implement plan design, wellness and risk management strategies that target issues before they impact the plan

At the Diversified Group of companies, all of these resources are provided in-house to help our clients achieve greater plan and cost control and deliver added value.

A Passion for Excellence. The Resources to Deliver.

Customer service, dedication, innovation and experience are essential in delivering an effective health plan and these same qualities are the building blocks upon which the Diversified Group family was founded. It also takes a coordinated effort that seamlessly blends the different components essential to managing healthcare costs and empowering healthier employees.

We are unique in that all of the tools and resources needed to deliver your solution to health benefits reside within our organization. *The Diversified Group Family of Companies includes:*

Diversified Group Brokerage (DGB)

Offers plan design advisors to help you build a self-funded plan that meets the specific needs of your organization, as well as stop loss brokerage services to ensure appropriate plan funding and risk coverage.

Diversified Administration Corporation (DAC)

Administers your plan. Provides prompt, efficient claim payment and adjudication services supported by an experienced customer service team to keep plan members informed and respond to any questions or concerns.

Corporate Fitness & Health (CF&H)

Helps you create worksite wellness offerings that combine with ongoing, informative promotion programs to keep your employees and plan members healthy and encourage them to make smarter choices in their everyday lives.

Corporate Managed Health Services (CMHS)

Provides case management services that ensure your high risk and chronically ill members are receiving the most appropriate and effective care. Pharmasense delivers high quality pharmacy benefits management and guides plan members to the most effective and cost efficient prescriptions.

Your Solution to Health Benefits

From plan design and claims administration to risk management and worksite wellness, Diversified Group is your solution to health benefits. **Contact us today to discover how we can help you design and implement a healthcare plan that can reduce your costs and foster a healthier, happier workforce.**
